Q: What is this course all about?

The term “ancient Italy” brings to mind images of togas and gladiators, but between the 9th and the 2nd centuries B.C., this pivotal area of the Mediterranean was home to a wide variety of peoples who flourished prior to the rise of the Roman Empire. Unfortunately, these populations, ranging from the Greeks and Phoenicians, who colonized the south, to the Etruscans and Celts, who dominated the north, have left us no surviving written sources other than very brief texts, often dedicatory in nature. Thus, our knowledge of these civilizations is based on inherently biased references in the writings of outsiders, often mainland Greeks and later Romans, and what we can glean from the rich archaeological record. This six credit-hour course explores the history and cultural achievements of pre-Roman Italy to reveal the splendor of the regions that inspired and fueled what would become one of the greatest superpowers in world history. This program is taught entirely online, and the interdisciplinary approach of the program is intended to sharpen students’ observation and critical thinking skills through the analysis of ancient textual, visual, and material culture.

Q: A Virtual Study Abroad Course?!? Is that not an oxymoron?

This program is an immersive “summer camp”-style experience unlike any other online course you might have taken before. Beyond more traditional lectures by the professor, you will participate in sessions with world-renowned archaeologists and art historians, virtual tours, experimental archaeology projects, movie nights, cooking classes, and much more. All class sessions are synchronous and will be held on Mondays, Wednesdays, and Fridays from 11 AM – 1 PM and 2:30 – 5 PM. Optional movie nights will be held on Fridays starting at 7:00 PM. Course materials for the various hands-on activities (including a substantial care package of Italian foods to try) will be sent to you prior to the start of the course. Each day will focus on answering a main question about the lives of the different peoples occupying the Italian peninsula and Sicily prior to the Roman conquest. We will also highlight more recent cultural traditions and unique geographical features of central and southern Italy daily.
**Q: Who is the professor?**

Keely Heuer is an Associate Professor of Art History at SUNY New Paltz. Her research concentrates primarily on the iconography of Greek vase painting and the interrelations between Greek settlers and indigenous populations of pre-Roman Italy. She has presented talks on a wide variety of imagery found in South Italian art at conferences in the United States, Europe, and the Near East. Her current book project is a study of iconographic connections between South Italian and Etruscan vase painting, and she has published articles in *Athenian Potters and Painters III*, supplemental volumes of the *Corpus Vasorum Antiquorum*, the *Metropolitan Museum Journal*, and more. Professor Heuer’s courses cover the breadth of ancient Mediterranean visual culture, with a particular focus on the art of Greece and Rome. She has excavated at the Sanctuary of the Great Gods at Samothrace and is a summer alumnus of the American Academy in Rome and the American School of Classical Studies in Athens. Prior to arriving at New Paltz in 2013, Professor Heuer taught at Hunter College and New York University. She is the recipient of fellowships from the Metropolitan Museum of Art, including one for the 2021-2022 academic year, and from La Trobe University in Melbourne.

**Q: How can I use the credit hours I earn?**

Because of the interdisciplinary nature of the program, the six credit hours earned can be applied to a wide variety of degree programs in Anthropology, Ancient World Studies, Art, Art History, Art Education, Elementary/Secondary Education, History, and Italian Studies. These credits also count towards Honors Program seminars as well as General Education requirements in the areas of ART, HUM, and WEST.

**Q: What are the assignments on which my grade will be based?**

Grades will be based on class participation, weekly quizzes, a creative project in designing an original ancient Greek colony, and a final exam in which students will interpret ancient artifacts as an archaeologist would, based on the material we have studied together.
Q: How much does the program cost? What expenses does that cover?

Program costs for New York State resident students is $2220 and Non-New York State residents $4698. Expenses covered by the program include tuition, all supplies necessary to participate in the experimental archaeology projects, all guest speaker and other interactive events, as well as Italian snacks and shelf-stable food specialties necessary for the cooking classes.

Q: Fantastico! How do I apply?

Applying for the program is easy! Simply complete the application available on the SUNY New Paltz Center for International Programs’ website at:

https://international.newpaltz.edu/index.cfm?FuseAction=Programs.ViewProgram&Program_ID=10131

Students are accepted on a rolling basis until the application deadline on April 1st. Accepted students will be required to put down a $200 deposit to secure their spot within two weeks of receiving the notification of their acceptance. A maximum of 30 students will be admitted into the program.

For further information, please contact Professor Heuer at heuerk@newpaltz.edu.

Hope you can join us for this one-of-a-kind Italian adventure!
